

## *Programming into Java, 3rd edition: Corrections*

### **Errata as of Tue Oct 15 11:41:23 2002.**

The on-line version of the *Programming Into Java* reference incorporates the following corrections to the paper version of the book. Thanks to Michael Sharkey (MS), Brian Heung (BH), Yangfan Wang (YW), Steven Chan (SC) for these corrections.

1. [MS] In the two definitions of `printSet` on page 54, “`primes.contains`” should in both cases be “`set.contains`”.
2. [BH] On page 16, near the bottom `("abcd").charAt (3)` should yield `'d'` (not `'c'`).
3. [YW] On page 154, use *ClassType* rather than *ClassOrInterfaceType* (two places).
4. [SC] On page 227, the references to figures for `InputStream`, `OutputStream`, `Reader`, and `Writer` were garbled.
